Art Unit: 3728

1. Claims 20-33 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 2/28/2006.

Drawings

2. The drawings are objected to because the sectional views A-A and B-B in Figure 1 should be designated by Arabic or Roman numerals i.e. 2-2 and 3-3 respectively corresponding to the view number of the sectional view (MPEP 608.02(h)(3)). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 2-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 2, the phrase "side retention members projecting" lacks antecedent basis because the instant specification only discloses "a plurality of deformable, resilient partial rings 50". Correction is required. The phrase "vertical camber shaped projections" in claims 7 and 9 lacks proper antecedent basis because the instant specification fails to disclose such phrase.

Allowable Subject Matter

5. Claim 1 is allowed.

Art Unit: 3728

6. Claims 2-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph **without removing the limitations from the claims**, set forth in this Office action.

7. claims 20-33 should be deleted in responding to this Office Action.
